

Dear Bob, Trish & Lees,

We want to thank you for the outstanding job you and 'the boys' have done at our home in St. Mawgan – both in renovating the original old house and building our new extension with the kitchen/diner and creative space. Throughout this year-long relationship you have consistently communicated well with us, as well as planning and anticipating all aspects during this complex project. The team were friendly, professional and hard-working at all times. Lees' project management and problem-solving were first rate. We would not hesitate to recommend you – in fact, we already have!

Best regards,

Andrew & Georgina
